

POWER PRESS 32, 46 & 68 COMPRESSOR OILS

POWER PRESS OILS are best in class mineral oil based air compressor oils designed to meet the stringent performance requirements of the compressor manufacturers. Power press oils are formulated from high quality carefully chosen solvent refined base stocks with superior performance additive package to deliver top of the line performance coupled with excellent equipment protection.

PERFORMANCE STANDARDS: ISO DIS-6521

APPLICATION:

- Recommended for lubrication of severe duty reciprocating and rotary air compressors with air discharge temperature upto 220°C.
- Suitable for lubrication of most types of OEM equipments e.g. Atlas copco, Ingersoll – Rand etc. as product meets OEM performance requirement provided viscosity grade as recommended by OEM is selected from the range.

PERFORMANCE BENEFITS:

- Good lubrication even under high operating temperature
- Excellent corrosion and rust protection characteristics
- Excellent anti wear properties offering enhanced equipment life
- Reduced fire and explosion risks due to low volatility and high auto ignition temperature
- Low carbon and deposit forming characteristics
